SPRINGS !!!

"THE MYAKKA RATTIER" The progressive weekly of the Myakka Flats; published weekly by Co 14211 CCC, Fla. SP-4. Capt. E. M. Fabian, Commanding.

Adviser: George Merrin
Editor: Bob Kelly
Ass'c. Editor: George Salter
Buss. Mgr.: A. W. Spencer
Cartoonist: Carl Powell

Feature Writer: Douglas Reynolds
Feature Writer: S. F. Williams
Sports Writer: Stanley Morgan
Infirmary News: Earl A. Rinker
Printer: N. B. Smith

SUBSCRIPTION RATES: Fifteen cents per month. Mail Subscriptions Twenty-five cents per month, for two copies, Twenty cents for one.

Say, Fellas, about this paper now. You know that we have a good one, one of the best in the State. There's no doubt about it. The large increase in subscribers proves it, but we should have just a little more support in several things. First of all it is your paper. We want you to take an active part in its publication. How, do you ask? By sending in writings of camp activities that interest you. If you have some good suggestions for the camp's betterment, some news or gossip that you think would interest others, send it in. If you don't want to write it yourself give the idea to any member of the staff and they will be glad to put it in black and white. Secondly, if you do not get your paper on publication day go to the Educational Building and if you have subscribed get your copy of the paper on the shelf set aside for the paper. We try our best to get the paper to everyone but surely you must understand that as the entire company is so very seldom together at one time that it is obvious that we may overlook a few. We really can't be held accountable for your absence. And remember- The paper is just what you make it. So let's get together fellas and have the best camp paper in the nation. Get your copy of the paper and let us know your opinion.

The checking of the rapid spreading of the 'mumps' shows that it really pays to show strict regard to the 'doctor's orders'. The fact that no bad complications have resulted and that over a dozen of the enrollees will be able to return to work Monday attest only too much to the good that modern science will do for us if we will only let it.

L. A. Doust, an artist says, "The eyes tell a person's true nature; the mouth tells the character, and the nose is a sure sign of the person's physical appearance. If a man or woman has a well-shaped nose you may be sure that he or she is good looking, whatever the other features maybe. If the person has eyes that are cruel, such is the nature, the inherited nature. But if the mouth is gentle, then you may know that the the person has, to an extent, conquered their cruelty by character formation.

WORK IS PROGRESSING

A group of cabins, five in all and a pavilion have been under construction for some time. There is to be one room and a large limestone fire place in each, also two small porches.

These cabins and the pavilion are built entirely of native material, the lumber is hand hued, shingles drawn by hand from cyprus blocks.

The pavilion which consists of a large enclosed central room and two open air verandas extending on the north and south sides is also near completion.

The cabins and the pavilion are to accomodate visitors and will be ideal for artist, fishermen, and nature lovers.

STRING BAND ENTERTAINS

Duplicating the minstrels of old the string band of our camp entertained the mumps patients last Monday evening. The band composed of "Red" Dunden, Brockman, Betts Triay, and others played quite a number of selections and even the patients joined in on the chorus.

The sufferers were very pleased and the boys that remain in the tent wanted several of song feasts.

LIEUTENANT LIVINGSTON

Lieutenant Livingston is recovering swiftly from his attack of mumps and expects to come out of quarantine Friday night. He states that he has greatly enjoyed his stay on the edge of the camp area and has not suffered much except from his swollen jaws. We are glad to hear that he is getting along so well and hope he is not disappointed Friday night.

A FISH STORY

The Myakka River is at its lowest stage in many years. Only the deepest holes have not dried up as yet. However with the rain yesterday it is hoped that the river will not dry up completely.

Several groups of boys from the camp has been gathering the fish and putting them in the deep holes and the upper lake. Most of the fishes have been caught with a cast net under the direction of Roney Willis and Mr. Smith.

All of the unedible fish have been killed and thus letting the perch and brim have a better chance to live.

* :*****

has been receiving very popular support. Don't forget to put in your suggestions.

BOYS WILL BE BOYS

We have a wonderful light plant in our camp, however it is like all good plants and goes on the blink at times. But that matters little here because this camp has the very best mechanics the C. C. C. can afford

Some time ago the dear old plant went BLUEY. Sergeant Major Kersey rushed to the rescue of the lights and while looking the machine over to see if he could discover the reason for its failure to percolate, Tyler, the Captain of the Guard came in to render his services, and after looking it over carefully he decided the bobin was bound too tightly. Kersey insisted the hub cap was put on backwards but they finally came to the conclusion that the plant was a fifteen horse power, that about fourteen of the horses were dead and the other sick.

Kersey monkeyed with the baby pin, gave it a crank, then walked out. Tyler took off the magneto, gave it a crank, and he too walkeed out.

Finally Chief Engineer Gibbons came along, and being a good (Please turn to Page 8)

STRANGE FACTS DEPARTMENT

We usually think of great men as being extremely serious and aloof - devoid of a sense of humor, too great to see the little humorous incidents of such type that happen during everyday life. This is not the case however. For example - Plato - one of the greatest and deepest philosophers who ever lived spoke the following lines as designated -: At a banquet of Plato's where there were costly carpets, Diogenes stamping on them remarked, " Thus I trample on Plato's pride". To which Plato retorted " With equal pride". Diogenes, also a great philosopher, when asked when people should marry, said- " Young men, not yet, old men, never". When asked what wine he liked best, he said, " Another mans". A Profligate inscribed above his door the following inscription, " Let nothing evil enter". Said Diogenes, " Where are you^{gou} going to live ?".

SPORTS

Rattlers Play All-Stars

Saturday the Rattlers will play the Sarasota All-Stars. The team will really go out there and play very hard ball to avenge the beating administered earlier in the month by the All-Star team.

Cone, captain of the team, will be in top form and will probably pitch. The team will be in excellent condition as all the members are in excellent physical condition with the exception of W.R. Monroe who is still in the tent with the 'mumps'.

Mr. Merrin is also trying to arrange a game for Sunday.

Game Postponed

The game Saturday May, the Twenty-fifth, with the C.C.C. Camp 14-18 at Sulphur Springs had to be postponed. A wire received by Capt. Fabian states that on account of an unnamed illness they had to delay the game.

It was very peculiar that the other camp wished to postpone the game this week as last week we had to postpone a game with the same camp as our camp was messed up on account of 'mumps'.

Leading Batters

	AB	H	Pct.
Cone	6	2	.333
Richardson	3	1	.333
Fernandez	3	1	.333
Williams	5	1	.200
Smith, N.B.	6	1	.173

Diamondball Slants

The inter-barracks' diamondball schedule was held up last week by the mumps. However it is hoped that the scheduled games will be played next week.

The league standing:

Barrack #2	2	0	1.000
" #1	2	0	1.000
" #4	0	2	.000
" #3	0	2	.000

Baseball Slants

The two games that were supposed to be played with Sulphur Springs and had to be postponed are to be played at some future date which has not been set as yet.

The members of the Baseball team certainly wish W. R. Monroe would hurry and get well and be able to play ball again.

POPULAR ?

This is the first of a couple of lectures on the gentle art of being popular. There are several traits that make one person popular when another person, with nearly the same traits will be extremely unpopular. The most important rules to observe if you would be popular are the following ones compiled by leading psychologists of today - check up on yourself - if you can answer the following questions in the affirmative, you are popular, I will promise you-:

1. Can you be depended on to do what you say you will ?
2. Do you go out of your way to help others ?
3. Do you refrain from showing off your knowledge ?
4. Are you careful not to let yourself feel superior to your associates, and are you careful lest they get the impression that you do ?
5. Do you avoid reprimanding people who do things that displease you ?

K-49 is still alive, but as the Nit-Wit would say "Who in the world is she, anyway?"

However we now have a certain CCL2 and CRL4.

What happened to a certain little brunette around here whose hair has turned red all at once?.

Did she get embarrassed or scared?.

Boy! watch Jakie's smoke. She always catches the blondes.

We wonder if Eddie Wallace has found his "Wild Irish Rose"?

Ben Richardson seems to have that motherly instinct. He rocked a certain girl to sleep the other night in Sarasota.

We didn't know that Rinker could play a guitar.

Quintana is going Arcadia.

Who was the girl that Holmberg kept guessing all night?.

Did you know that Welch made a date with a certain girl to show her the man in the moon?.

So C.O. Arrington is getting forty five for teaching the boys how to hew eh?. They tell me that the boys are teaching him.

Charlie Cicarello's favorite song is : "After the Ball is Over" Many ducks Charlie.

Who was the sweet girl that Holmberg was picking petals off?.

We wonder whats got George Spanos so interested in Arcadia?.

We wonder where Eddie Wallace got the gardenia ?. I know.

We see that Shugars has a big weakness for blondes.

Keep up the good work Frank Thompson. Even if she does call you Dugan you might be able to get rid of her yet.

Marvin Donaldson isn't going to Bee Ridge so regular. But we can't say that he was cradle snatching.

7. Do you refrain from making fun
of others behind their backs ?
8. Do you avoid being sarcastic?.
9. Do you keep from being dom-
ineering? The next traits in imp-
ortance are:
1. Do you keep your clothing neat
and tidy?.
2. Do you avoid being bold and
nervy?.
3. Do you avoid laughing at the
mistakes of others?.
4. Is your attitude towards the
opposite sex free from vulgar-
ity?.
5. Do you avoid finding fault with
everyday things?
6. Do you let the mistakes of oth-
ers pass without correcting
them?
7. Do you loan things to others
readily?
8. Do you think about telling jokes
that will embarrass those lis-
tening?
9. Do you let others have their
own way?
10. Do you always control your tem-
per?
11. Do you keep out of arguments?
12. Do you smile pleasantly?
13. Do you avoid talking almost
continuously?
14. Do you keep your nose entirely
out of other people's business?
Are you able to answer yes to

most of these? Make a list of the
ones you are not so good on and
try to watch yourself the next
time you don't make a hit with
the girl friend or the people with
whom you come in contact.

Watch yourself?

Next week we will give the rest
of the traits that make for a well
balanced personality.

(Continued from Page 4)

hearted lad, with much scientific
skill and energy brought back to
life the fourteen dead horses,
healed the sick one, gave the en-
gine a twist and of it went like
a top.

Mr. Spear, looked the job over
removed several screws and now we
have a very good light plant in
dear old C.C.C. Camp 1421.

We wonder exactly why Tommy
Godwin quit the truck?

If Buddy King doesn't hurry
and get rid of the 'mumps' all
the girls are going crazy around
here.

We having tried our best can't
find out who the girl is in Sara-
sota that wants a date with Cap-
tain Cone?
